OUR MINES AND MINERS.

INTERESTING PARAGRAPHS ABOUT THE MINERAL DEVELOPMENTS OF CRITTENDEN COUNTY.

The shipments of fluor spar for the three weeks ending January 8th were 1520 tons.

The latest New York quotations on fluor spar were:

Lump, \$10.90 to \$12.10.

Ground, 15.00 to 17.00.

On foreign, lump, 8.00 to 12.00.

Ground, 11.50 to 14.00.

The price of Barytes in New York:

American, \$ 7.50 to \$ 9.00.

German, 14.50 to 17.00.

The lead and zinc market in Joplin was steady at \$28 for zinc and \$22.50 per 1,000 lbs for lead.

The price of Calcium, one of the rare minerals found associated at times with zinc ores, is about twice that of silver, ranging from \$1.55 to \$2.83 per kilogram. This valuable mineral has been found in the drift running from the bottom of the King shaft. This is one of Messrs. Blue & Nunn's properties on the "Tabb" vein.

The Chicago Mining Company, at its regular annual meeting on January second, elected the following Board of Directors: Messrs. Henry C. Clark, D. C. Roberts, Lester L. Jones, O. E. Logan, all of Chicago, and C. S. Nunn, Esq., of Marion.

The Pugham shaft, one of the very best fluor spar shafts in the county, is being drilled by the derrick was successfully completed last Saturday.

The Kentucky Fluor Spar Company closes the year with the best showing it has ever made. Mr. Postlethwait, the resident manager, and Mine Captain Walling, are to be congratulated for their company is on the verge of such men.

The Illinois Coal and Iron Company would present a splendid appearance if one of our enterprising Marionites would lead a party of three or four to inspect the three shafts now being sunk at Salem and now lying in the ship them north from Marion.

Captain Haas, the first owner of the Livingston county mine and one of the pluckiest men here or elsewhere, has returned from his Christmas trip to Wheeling, West Virginia.

If you have a mine, or lands anywhere, old or new, good for nothing, looking for a rock that you would use to hold a barn door open, provided it has the weight to stay in place, you are in doubt bring a sample of it over to the office of the paper and we will try and give you correct information about it. An analysis of this class of rock shows zinc from 40 to 48 percent and would be worth on the market just as it is from \$10 to \$12 per ton.

If you are fortunate enough to obtain pay mining in your shaft never mind about the "walls." Keep right on working and the walls will take care of themselves.

Several leases and sales of mineral lands were made during the week and will be given in detail in our next issue.

It is learned that the Cleveland and Salem Lead and Zinc Company, under the direction of their engineer, James Cox, Esq., have made some most promising developments. Their "Nancy Hanks" shaft, at a depth of 60 feet, is showing up finely in lead and zinc. It will be remembered that this company was incorporated under the laws of the State of Dakota, with a capitalization of one million dollars. Capt. Frank Wilson, of Cleveland, Ohio, is Treasurer of the company.

Among the new companies in process of formation are the Buckeye Development Company, of Cleveland, Ohio. Mr. C. W. Conder, of Cleveland, Treasurer, The Republic Mining Company, of Canton and Cleveland, Ohio, and the Boston and Livingston county company, these three companies being represented in the field by their Engineer, Mr. C. M. Miller.

Dudley Wallingford, one of our esteemed mining men, and incidentally a first-class judge of horses, has finally found fluor spar on his farm, just outside the city. So far it's not much of a find, to be sure, but there was some in his sample rock—anyhow enough to feel pleased over.

Messrs. Blue & Nunn's mine on the "Tabb" vein is looking remarkably well. A 50 foot shaft located by Fred Clements, who is also interested in the property, is rapidly developing into what in many sections would be termed a bonanza in zinc and lead.

Engineer C. M. Miller, of Canton, Ohio, one of President McKinley's townsmen, and political somewhat opposed to many of our chief magistrate's plans and views, is again in town and fully prepared with miners, drill steel, powder and other things to show that he has a vein about seven miles from the city hall that is the coming spur, zinc and lead, center of Kentucky or any other State in the Union, not excepting either the Philippines or Porto Rico. Of course when Mr. Miller speaks of Kentucky it is that sense he means Crittenden county.

Just a hint to our city fathers. Let a little time for some concerted action to be taken to care for the influx of visitors sure to crowd Marion from this time on. Our hotels are already pressed for room to accommodate new arrivals. A few street gasoline lamps provided with the Welsbach mantle would give us a much better appearance at night and save the city fathers a good deal of trouble in rebuking people for breaking one of the commandments when the mud is deep and no light visible save the stars.

The Press is greatly indebted to Mr. D. C. Roberts, of the Chicago Mining Company, for the information regarding mining news he so willingly gives us. This gentleman is ever ready to aid us in our search for news, and he undoubtedly realizes what a help a newspaper is to mining men opening up new fields.

TEN YEARS

Was The Verdict of Jury in The Clark Murder Case.

The trial of Dr. W. E. Clark, charged with the murder of Miss Cora Waller, ended Saturday afternoon at Dixon, when the jury after considering the case for one hour and fifty minutes, returned a verdict fixing the defendant's punishment at ten years confinement in the penitentiary.

The verdict was rather a surprise, as it was the opinion of many that the evidence would not justify such a verdict.

Dr. Clark was accused of causing the death of Miss Cora Waller of Morganfield, by a criminal operation. The evidence showed that the young woman was brought to his office by Tom Holt, also of Morganfield. The girl expired in the operating chair and Holt committed suicide. The doctor claimed that the girl died of natural causes.

The trial was one of the most noted and interesting ever held in this section of the state.

JESSE OLIVE

Appointed Deputy Warden of the Eddyville Penitentiary.

Saturday afternoon Mr. Jesse Olive was notified by telegram that he had been appointed deputy warden of the State Penitentiary, at Eddyville, by the Prison Commissioners. The appointment came as a surprise to Mr. Olive, who two years ago entered into the race for the position but was unsuccessful. The position is an excellent one and a splendid man has been chosen to fill it, for there is no doubt that Mr. Olive will make a most competent official. He has tendered his resignation as traveling representative of the Crawfordville Casket Co., and will take charge of his new post on January 15th.

THE HAZING OF CADETS.

The Congressional Committee Re-
solves the Taking of Testi-
mony at Philadelphia.

NEW WITNESSES ARE COMING FORWARD

The Breth Family and Anthony Bur-
man, of Frankfort, Ky., a Testi-
mony at Philadelphia.

Philadelphia, Jan. 7.—The congress-
ional committee appointed for the
purpose of inquiring into the alleged
hazing of former cadets, Oscar L.
Booz, of Bristol, Pa., and John Breth,
of Altoona, Pa., resumed the taking
of testimony at the Lafayette hotel.
The committee has lived here since
for the beginning of the third day's
work, but it was in a clock, before
the first witness was sworn. The
committee men attached much import-
ance to the testimony of the day's
witnesses. The Breth family, which
firmly believes that John Breth died,
indirectly, of hazing at West Point,
and Anthony Burman of Frankfort,
Ky., Booz's test mate, were heard
during the day. Some of these wit-
nesses testified before the military
board of inquiry.

Anthony Burman's Testimony.
Burman was the first witness called.
He was told to state in his own way
what he knew of the matter under
consideration. Burman said he went
to West Point in June, 1896. He asked
Booz to become his test mate when
they went into camp in July of that
year. Booz, he said, was a nice
sort of young man and up to the
standard of other cadets. The other
cadets had a lot of fun with Booz on
account of his name. The upper class
men and a cadet named Harrison in
particular, Burman said, ordered new
cadets to do various things to see if
the new men would obey them. He
did some things asked of him, but
finally refused to do so, believing the
third class men were only trying to
harrass him.

Ordered Out to Fight.
He was ordered out to fight by the
"fighting committee." Burman did
not know any members of this com-
mittee. After the contest, Burman
saw Booz lying in his tent. He looked
dejected and had been crying. Booz
told him he had been "cracked out,"
and that he had received a blow in the
stomach which rendered him also
helpless. Burman said other
cadets said that Booz had "faded
down." The upper classmen kept
taunting him, saying he would make
no soldier. This was kept up until
he resigned.

Tried Out by Booz's Routine.
Burman said Booz, like all other
class men, was always tried out by
the severe routine of camp. Keller,
his opponent in the fight, was a
true gymnast. Booz studied very fit
in the account of his eyes hitting
him. On this account he stood low
in his class.

Told to Take Tobacco Sauce.
Booz also told Burman how upper
class men told him (Booz) to take
tobacco sauce. Booz, said Burman,
was given a small bottle of tobacco
sauce and told to take all of it before
he left the table. He took it by the
spoonful. On one occasion Booz told
him that he put a lot of the same on
a piece of steak intending not to eat it.
An upper class man noticed this
and ordered Booz to eat the steak.
Booz told Burman the staff was ruin-
ing his stomach.

Had Taken Some Himself.
Burman said he had taken tobacco
sauce, but never more than a drop
at a time. He did not know that it
induced violence had ever been used to
induce Booz to take it. He said:
"Booz was very unpopular, and if he
had made a complaint he would have
been treated still worse."

**Do not let the officers of the academy
try to prevent hazing?"**
"Do not let the officers of the academy
try to prevent hazing?"

**They do, but the officers are not
always around when the hazing is go-
ing on.** When any hazing was in
progress a number of cadets were
usually on duty to watch for the offi-
cers and warn the hazers if one
should come along.

**While Burman was in the fourth
class a period of about twelve months,
there were about ten men "called
out" to fight. Fighting was prohibi-
ted at the academy, and yet no action
was taken by the academy officers to
punish any one as far as Burman
knew. Burman knew little about the
membership of the fighting commit-
tees. As far as he knew they were
appointed by the class president and
were not elected by the class men.**

**In answer to Mr. Driggs Burman
said he was discharged from West
Point for delinquency in studies, espe-
cially drawing and mathematics. He
said he positively had no animus
against the institution and had no
known enemies there either among
the officers or the cadets.**

LATEST FROM KITCHENER.

The British Commander in South
Africa Compelled to Cede
Some More Regrets.

London, Jan. 7.—Reporting to the
war office, under date of January 6,
Lord Kitchener says:

"Yesterday Bulington engaged
De la Rey and Steenkamp's comman-
dos at Nampopos. The enemy was
forced to retire to the northwest. Our
cavalries have not yet been received,
but are reported slight. A Boer doc-
tor admitted that 20 Boers were killed
or wounded. Commandant Duprez
was taken prisoner."

"It appears from reports of the
wounded who have arrived at Heil-
bron that a detachment, 120 strong,
belonging to Knox's command came
into contact with a superior force near
Lindley. I regret to say that Lieut.
Loring, two other officers and 15 men
were killed and two officers and 20
men wounded. No details have come
from Knox of this action."

IDEA HAS BEEN ABANDONED.

COMPLETE ELECTION RETURNS FOR 1900.

Official Vote in Every State for President and Governor—Only 51,
607 More Votes Cast Than in 1896—Bryan Lost 145,072
and McKinley Gained 114,350.

From the Kansas City Star.
The official table of the election re-
turns of 1900 and 1896, which is given
here, is official. Where the space is
blank, as is the case sometimes in the
gubernatorial columns, there either
was no election for governor in that
state in 1900, or the vote is yet to be
officially canvassed by the state legis-
lature. From the figures given in the
table it is shown that in 1900 only
51,607 more votes were cast than in
1896. From this it is evident that
many states had an increased stay-at-
home vote. This was the case prin-
cipally in the southern states, where
Mr. Bryan lost more heavily than in
the other states. Mr. Bryan's great-
est gain was in New York, where
nearly 100,000 votes left the republi-
can ranks. This still, however, left
McKinley a plurality of 143,608. Mr.
Bryan's greatest loss was in Texas,
where nearly 66,223 votes changed
sides. Mr. Bryan gained over 1896 in
Delaware, Illinois, Indiana, Kentucky,
Maryland, Massachusetts, New Hamp-
shire, New Jersey, New York, Rhode
Island, Vermont and West Virginia.
In addition to all the southern states,
McKinley rolled up heavy gains in the
west, notably in Kansas, which gave
him 23,354 plurality, where the state

She Must Leave the State.
St. Louis, Jan. 5.—Maude Lewis, who
shot and killed State Senator Peter R.
Morrissey on May 15, 1895, at her
home, No. 2719 Wash street, and was
later convicted and sentenced to
serve 15 years in the penitentiary,
was pardoned by Gov. Stephens
yesterday. The pardon was granted up-
on condition that she leave the state
and never return.

Probably a Fake Report.
Berlin, Jan. 5.—With reference to
the report that Count von Waldersee
has been killed by an officer of the
allied troops it is declared that the
government has no corroboration of
it. Count von Waldersee reviewed the
British soldiers January 1.

Killed His Young Grandson.
Marble Hill, Mo., Jan. 5.—Linville,
the two-year-old son of W. A. Dunn,
ex-collector and chairman of the
Hollinger county democratic central
committee, was mortally wounded by
his grandfather with an old pistol
supposed to have been empty.

Population of Christiana Decreasing.
Christiana, Jan. 5.—The new year
found the total public debt of Nor-
way to be 231,000 kroner. The popu-
lation of Christiana is decreasing, be-
ing 225,729 against 226,423 on January
1, 1900.

They Ate Uncooked Sausage.
St. Paul, Minn., Jan. 5.—In New
Sweden, in Nicollet county, the entire
Forebeck family, consisting of 12
members, is dying off one by one from
typhoid. The family ate sausage
which had undergone no cooking, but
had merely been smoked. The father
and eldest daughter are dead and the
condition of the others is pronounced
hopeless.

His Scope Is Broad.
New York, Jan. 5.—The Samuel J.
Tilden Democratic club was incorpo-
rated yesterday. It is the latest or-
ganization of democrats whose pur-
pose is said to be the ultimate reor-
ganization of the party in the state
and nation.

Soldiers Brought from Cuba.
Newport News, Va., Jan. 5.—The
United States transport Sedgewick
arrived in Hampton roads yesterday
from Cienfuegos, Cuba. As she came
from a Cuban port the Sedgewick is
now detained in quarantine. She
brings some army officers, soldiers and
civilians, returning from Cuba.

Would Have Department of Education.
Washington, Jan. 5.—Senator Hans-
brough introduced a bill creating a
department of education and giving
the head of the department a place in
the president's cabinet.

THE CASTELLANES' INCOME.

The Suit, in New York, to Tie Up
the Castellane Income Against
Postponed.

New York, Jan. 7.—The suit brought
by Anton J. Dittmar, an assignee of
Asher Wertheimer, a London dealer
in bribe-bribe, against George J.
Toul and the other trustees of the
estate of the countess De Castellane
to restrain them from paying her and
the count de Castellane any money
pending the result of the suit, was on
the calendar in the supreme court,
but was adjourned until Thursday
next.

Samuel Undermyer, counsel for
Dittmar, explained to Justice Beach,
before whom the motion to continue
the temporary injunction was to have
been argued, that certain affidavits on
behalf of his clients had not arrived
from Europe.

IS REGARDED AS CRITICAL.

The Dispute Over the American As-
phalt Conclusion in Venez-
uela Becoming Acute.

Willemstad, Curacao, via Haytien
cable, Jan. 7.—The United States Min-
ister at Curacao, Venezuela, Mr.
Loomis, according to the latest ad-
vice received here, has not yet suc-
ceeded in obtaining justice for the
New York & Bermudez Asphalt Co.
in its dispute with the local authori-
ties and the situation is regarded as
critical. Three American warships are
either at La Guayra or on their way
thither (Buffalo, Hartford and Scorpion)
and the Americans are complaining
at the alleged delay in obtaining pro-
tection for their interests. The local
authorities, it was added, encour-
aged the natives to invade the com-
pany's plant.

THE PRESIDENT HAS A COLD.

The Trip to Canton to Attend the
Funeral of Paymaster Har-
ber Will Be Abandoned.

Washington, Jan. 7.—President Mc-
Kinley has a slight cold and is deny-
ing himself to all callers. The cold is
not serious and will not interfere
with the reception to the diplomatic
corps to be given at the White House
Wednesday night. The president and
Mrs. McKinley have abandoned their
proposed trip to Canton, Thursday,
where they were going to attend the
funeral of the late Assistant Pay-
master of the Navy, Harber, who was
a nephew of Mrs. McKinley.

AN INFANTILE MURDERER.

A Fourteen-Year-Old Girl Shot and
Killed by Her Nine-Year-Old
Brother.

Marietta, O., Jan. 7.—During the ab-
sence of Wm. Chidester and his wife
from their home on the river, near
here, Thomas, a nine-year-old son,
shot and killed his sister Florence,
aged 14. No reason is known. He ap-
parently does not realize the enormi-
ty of his crime and fought for posses-
sion of the gun when a neighbor ar-
rived. The parents are prostrated and
the mother may die.

FIRE BRICK COMBINATION.

Fifteen Plants in Ohio and Kentucky
to Be Consolidated and
Five Closed.

Ironton, O., Jan. 7.—It is announced
that the fire brick manufacturers of
West Pittsburgh will form a pool with
a \$1,250,000 capital. Fifteen plants will
be in the proposed combination lo-
cated at Ironton, Portsmouth, Scioto-
ville, Belleaire and Cincinnati in Ohio,
and Ashland and Olive Hill, Ky. Ten
are to be operated and five closed.

Gambler's Blackmail.

New York, Jan. 7.—Former District
Attorney Wm. K. Alcott, says he has
absolute proof that the gambling
houses paid \$1,200,000 last year, the
poolsrooms \$1,200,000, policy shops
\$400,000, and disorderly houses and
other forms of vice \$2,800,000, or a
total of \$5,600,000. This sum is di-
vided by a coterie of politicians. Mr.
Alcott alleges, known as the "gam-
bling commission."

Ex-Senator Bradbury Dead.

Augusta, Me., Jan. 7.—Former United
States Senator James Ware Brad-
bury died, Sunday, of bronchitis. He
was born June 10, 1802. He was gradu-
ated from Bowdoin college, in 1825,
in the celebrated class in which were
Henry W. Longfellow, Nathaniel Haw-
thorne and other notables.

With Military Honors.

West Point, N. Y., Jan. 7.—Miss
Blanche Herard, who was beloved by
all the cadets at the military academy
during her 50 years' service as post-
mistress, and who died in Hackensack,
N. J., was buried with military
honors here, the cadets and officers
participating.

Phillip D. Armour Dead.

Chicago, Jan. 7.—Phillip Danforth
Armour, philanthropist, financier and
multi-millionaire, head of the vast
commercial establishment that bears
his name, died at his home, in this
city, Sunday in his sixty-ninth year.

ONE YEAR ONE DOLLAR

What will the Louisville papers have to talk about, now that the Botto will case has been settled?

Oh, if we only had electric lights to dispell the gloom of the Plutonian darkness of cloudy January nights.

Some people should resolve to do better this century and pay up their subscriptions to their county papers. They would feel better.

Candidates for the United States Senate are becoming numerous in Kentucky. Many leading Democratic and Republican leaders have already announced.

Mr. Bryan will issue the first edition of the "Commoner" on Jan. 15th. The subscription list of the great Democrat's paper has already reached the thousands.

We will make our mineral column an important feature of the Press. All information regarding new mines, now finds, now developments, will be thankfully received by us.

The Court of Appeals convened at Frankfort Monday. Judge Hazlerigg retired and Judge O'Rear succeeded him. Judge Paynter is the new Chief Justice. The Howard and Powers cases will be acted upon this month.

The first issue of Clinton's new weekly, the Hickman County News, reached us last week. The paper is an up-to-date, newsy, well edited weekly with Mr. E. Brooks editor. We feel confident that the News will prove a success.

Gam Paul Kruger will pay this country a visit next month. We venture to say he will be warmly welcomed throughout the country for the majority of Americans are with Uncle Paul and his little band of patriots in their struggle against English oppression. England is still having trouble in the Transvaal and it is to be hoped that she will never succeed in her merciless and unjust fight against the Boers.

ALEXANDER TELEPHONE.

Extension of Lines, Cheap and Satisfactory Service.

T. J. Alexander passed through town yesterday en route to Smithland to superintend the final touches of the extension of his telephone line into that place. He expects to be able to ring up, not all the world, but a goodly portion of the choicest sections thereof, from the antique, but still thriving citadel of old Livingston. Smithland, as well as the towns between here and there, will be on the Marion exchange. This is something unusual in the telephone business—Smithland is thirty miles away, yet the hundred or more subscribers on the Marion exchange have free access to that town. This is in keeping with the liberal policy of the Alexander line. This line reaches all the principal towns in Crittenden county, many country residences, and now it goes into Livingston county on the same broad policy, and all of these are absolutely free to Marion, and all the subscribers in these smaller places have free access to Marion and to each other. The extension places Smithland and Hampton and other points in Livingston county, on the same line on the same liberal terms, and this is an arrangement that the people of Marion should appreciate, and we are glad to note that they are showing their appreciation by a liberal patronage. Mr. Alexander came to Marion and without competition fixed a rate for the exchange that is as low as is in vogue in any section of the country, and lower than in many sections where other more pretentious lines are operating; he extended the exchange to adjacent towns, and without toll—without money and without price—he united these towns, and has given us a service that for promptness, accuracy and reliability in every particular is not excelled anywhere. To sum the whole matter up briefly, he was the first in the field, showing his faith in a territory that others were disposed to leave for "a more convenient season;" he fixed a low rate of his own free will, without being forced to do so by strong competition; he adjusted his lines to meet the most exacting demands of the public without stopping to measure the size of dividends; he shows no disposition to be contented with "well enough," but goes right along extending his lines in directions that are of most importance to Marion, as well as to the new territory itself; his employees are courteous and responsive to

the public demands. The proprietor of this system is not difficult to reach, and he has always shown a desire by actions as well as words to give his patrons the very best service possible. The equitable way to measure the Alexander system is to compare its privileges and its service in this section, where it is practically without competition, with the prices and service of other systems in sections where they control the field and are without competition. When this is done, Marion will continue to stand by J. T. Alexander, as she should.

One feature of a telephone exchange should not be overlooked—its value depends upon the number of its subscribers. A system that serves the entire field, locally, is worth twice as much to each subscriber as a system that covers half the field. A telephone in your home or business house that connects you with 150 other homes and business points around you, is fifteen times more valuable to you than a phone that connects with only ten of these points. The value of an exchange does not depend upon long distance connections. The people of Marion and surrounding towns have a hundred business transactions with each other where they have one with distant cities.

All obituary notices of not over ten lines will be published in the Press free of charge, but for each additional line five cents will be charged. Resolutions of respect will be printed at rate of two cents per line.

Mr. E. W. Dalton, of Crider, paid us a call Saturday. Once a year for fifteen years Mr. Dalton has paid the Press a visit and deposited a dollar in the slot. He says this paper is a household necessity with him.

Mr. George Gray, who has been employed in Clifton's dry goods establishment for a number of years, tendered his resignation Saturday and accepted a position with the Vandell-Gugenheim Co. Will Clifton succeeded him.

Tom Dollins has sold his farm to Frank Conger, and the former has purchased Geo. Williams' residence in East Marion, and Mr. Williams has purchased A. L. Cruce's farm near town. Mr. Cruce thinks he will go west.

Mr. E. S. Tribble, of Henderson, is the guest of his kinsman, Mr. Al. Dewey, of this place. Mr. Tribble is an architect and does a good business in Henderson; he hopes to build up some business in Marion, and we recommend him to persons who may want drawing plans, specifications, etc., of any kind of building.

There came to our desk this week a new exchange, "The Student's Companion," a bright, new little journal, published in the interest of the Ohio Valley college at Sturgis. Among the photographs of the members of the faculty we notice the pictures of Miss Melville Glenn, of this city, and Miss Leah Wise, who was the guest of Miss Glenn during the holidays.

Ed. PRESS: Our second quarterly meeting for the Marion circuit will convene at Rosebud church the 26th and 27th of this month, which will be the 4th Saturday and Sunday. Preaching Saturday and Sunday morning at 11 o'clock, by our Presiding Elder, J. W. Bigham. Everybody is invited. I want all of the Stewards to be present with a first-class report. May the good Lord give us a good meeting.

IN THE FOREST

A Beautiful Baby Was Found Dead.

Saturday the body of a new born baby was found hidden between two logs near the bank of Trade-water, opposite Blackford, in Crittenden county. The abandoned little waif seemed to have been dead about ten days or more when found. The coroner was summoned and county attorney Kevil was called. An inquest was held and it was decided that the baby had been born dead and body hidden by the parents. The affair is shrouded in mystery. The baby was buried Sunday.

A. F. Griffith of Henderson was in town Wednesday.

Mr. Joel P. Deboe, assistant postmaster at Clinton, is with friends in this section.

The board of tax supervisors, composed of Messrs. S. D. Brown, J. G. Gilbert, C. W. Fox, H. A. Belt, and Rufus Wilson are in session at the court house this week.

Mr. Jeff Clement, one of the directors of the Marion Bank, tendered his resignation this week and Mr. C. S. Nunn was chosen to succeed him. Mr. Clement will go to New Mexico in a few days.

Mr. Geo. Whitacotton, the Sullivan merchant, has been visiting relatives at the New Gill House during the week. George was an old Morgan raider, once upon a time, and was captured with Gen. John Hunt Morgan during the Ohio raid.

The Farmers Bank now occupies the new brick on the corner of Court and Main. The interior of the bank is very beautiful, the fixtures being of the finest quality, and of the most artistic designs. The bank is one of the prettiest in the State and is indeed a credit to the city of Marion.

School opened Monday with quite an addition to the pupilage. The eighth grade and high school department are in splendid shape, and give promise of doing fine work this term. Miss Dedie Clement has been employed to take charge of the sixth grade. About fifty non-resident pupils are now in attendance.

A Card.

I wish to state to my friends and customers that I have resigned my position with J. H. Clifton & Sons and am now connected with the Vandell-Gugenheim Co., where I will be glad to welcome you. I appreciate your friendship and patronage of the past and hope I can retain both in my new position. When in our town call and see me and if you need any goods I will take pleasure in giving you my personal attention, and at prices that will be most satisfactory to you. Again thanking you and wishing you a happy and prosperous New Year.

I am, yours, etc.,

HAPPY EVENTS

That Transpired in Social Circles Long to be Remembered.

In the parlors of the beautiful home of Mr. R. F. Dorr, a merry crowd of young people gathered Friday night. Miss Anna Dorr had issued invitations to about thirty of her friends and nearly that number enjoyed the pleasant affair. The hostess spared no pains in seeing that every guest was having a pleasant time. At ten o'clock refreshments, consisting of ices, cakes, and marshmallows were served, and before the guests left the dining room all lights were extinguished and from the gloom there came forth a fortune teller and many of the guests were told of the sorrows and joys in store for them ere they cease to wander on this mundane sphere. A needle threading contest was engaged in after the departure of the soothsayer. Miss Bettie Wigginton, of Fredonia, was winner of the first prize, while Creed Taylor captured the booby prize. The hours swiftly and merrily came and were gone. Midnight was almost upon them when the happy girls and boys thanked the hostess and departed.

On Saturday evening, Jan. 5th, Estelle and Hick Walker entertained a number of their young friends. About seven-thirty o'clock the guests assembled in the inviting parlor and for some time were engaged in pleasant conversation and various games. At 9 o'clock slips of paper with commands written on them, were given to the boys and slips containing the answers to them were given to the girls. Each boy in this way found the girl that he was to take to supper. When all had been matched they proceeded to the dining room, where a delightful luncheon was served. Upon retiring to the parlor a small paper box was given to each guest, each box containing fourteen questions, each to be answered by some kind of a box. As an example: "What kind of a box will you need as long as you live?" "Cash box." Two prizes were given in this contest. The first was won by Earnest Carnahan—a box of French bon bons, and the second, an immense green paper box, was carried off by Julius Fols. This was quite a novel contest and created much merriment among the young people. After this was ended, it began to dawn toward the first day of the week, the guests, after expressing their appreciation of a most pleasant evening, departed.

A Guest.

Mr. Hughey Harley and bride arrived in this city Friday morning and are the guests of the father of the groom. A few of Mr. Harley's friends were invited to dine at the Harley residence, in honor of the happy couple, Friday, and that evening a reception was given in honor of the bride and groom at the residence of Mr. R. F. Haynes. A large number of guests enjoyed the delightful affair, and each one present showed congratulations and best wishes for a long and happy life, upon the popular groom and his beautiful bride.

Miss Nellie Champion entertained a goodly number of her young friends Friday evening. Games of all kinds were enjoyed by the boys and girls until a late hour.

Mrs. Julia Miles entertained her Sunday school class and many of her pupils' friends, at her home Thursday evening. The affair was a most enjoyable one.

A Cup of Good Coffee

To get a really good cup of coffee you'll have to start back of the actual making; you'll have to look to the roasting and the grinding. In ARBUCKLES' you have a coffee that's scientifically roasted, and delivered to you with all the pores of the berry hermetically sealed. You're sure of a good cup of coffee because all the coffee flavor and aroma are kept intact until you want it. The fame of ARBUCKLES' induced other coffee packers to put out imitations of it. These imitations cost the grocer (and you) a cent a pound less than ARBUCKLES'. But don't be tempted to buy a package of some other coffee when you can get

Arbuckles' Roasted Coffee

for it is actually less expensive than the cheap kind; goes further—besides being better flavored, more satisfying.

You will find a list of useful articles in each package of Arbuckles' Coffee. A definite part of one of these articles becomes yours when you buy the coffee. The one you select from the list will be sent you on condition that you send to our Notion Department a certain number of signatures cut from the wrappers.

Writes of Home Gowns, the Craze for Gold and the After Christmas Bargain Novelties.

SOME charming gowns designed for home wear

GOWNS for home wear are quite as charming as the more elaborate affairs designed for street, evening or visiting occasions. Of the cut of this class of gowns the sleeves are the most important feature, and some novel ideas are worked out in them. All sorts of fancy and unique effects are worked into these and many have the double sleeve effect. Of the materials for this class of gowns the light-

weight cloths, such as cashmires, crepes, silks and satin-faced cloths, are popular.

Some general idea of the house gowns that are being seen may be had from the following description of a few of them:

A charming affair is of light brown cashmere. Of this the skirt is made of small knife kilt at each side of the front, having rows of narrow black velvet each side of the front, and forming a diamond shape V on the front panel at the hem. The velvet is on the side and back in rows of two, three and five forming a V-shape. The bodice has a V-shaped vest of golden lace trimmed with rouleaux of silk in delicate tones of mauve, blue, green and gold. On each side the bodice is of cloth trimmed with rows of velvet in bolero fashion, this edged with skunk tail. The deep waist belt is trimmed with rows of velvet. The unique sleeves are of the cloth, finished in a deep V just below the elbow, with rows of velvet and the skunk tail to edge. Below this is a puff of golden lace.

A more striking gown is of rich satin-faced cloth in a terra cotta. This being quite bright is subdued by black silk braid from the waist line to the knees, gradually shortening toward the back, with gold buttons to finish at each end. Below this is a circular flounce trimmed with the braid in the same way. The bodice has a yoke of putty colored cloth, covered with glittering steel heads. Below this, on a slightly full blouse, are rows of braid with the gold buttons at the top. Plain undersleeves, with a deep pointed over-

sleeve trimmed with the braid and buttons.

A unique fancy blouse is in rich Merveilleux satin and tucked white chiffon. Down the front, and around the short bolero, is an edging of Point Venice lace. The undersleeves are of the tucked chiffon, with overleaves of the satin, these having box plaits at the top falling loosely at the elbow, with a finish of black velvet and Point Venice lace.

GOLD the one distinguishing note of fashion

NEW YORK keeps constantly growing more cosmopolitan in matters of dress. At the present time no one set can fix the styles for all, and every woman finds a means for displaying an individuality in her gowns. This is carried almost to extremes at times, but in practically every instance where the vogue has been discarded in other ways there is one thing which connects such garments with the ruling styles—that is gold.

According to what one may see for

himself, and to a New York fashion writer that I never hesitate to quote, because she is authority on all subjects connected with the mode, the one distinguishing note of fashion which dominates everything we wear this season is gold. All the other variations in trimming are minor accessories compared with this element. There are gold beads, and gold thread in all the embroideries, gold on our gowns in every conceivable form, gold in the finish of our fancy coats and evening wraps, gold roses in the hair with evening dress, and gold dots in our veils. Silver, especially in the tissues, is also very popular, but gold has the lead at present.

It is shown at its best in evening dress, where gold gauze over silk forms the foundation dress for mousseline and chiffon. This makes a very elegant gown of course, too much so for the youthful costumes worn by young girls, who are advised to use this element of decoration very sparingly. One gold rose in the hair is permissible, however, and also a gold rosette on the bodice. With these shimmering golden tissues, jeweled nets, and lace combined with chiffon are used for the over dress, with most fascinating effects. Tiny gold sparkles glisten in the various kinds of embroideries, some of which are supplemented with the chiffon roses which are one of the mysteries of the embroiderer's art this season.

The young lady's evening gown is most properly made of chiffon, tulle, or point d'esprit, and elaborated with ruffles, tucks, plaits, flounces, lace, flowers and possibly some pompadour ribbon for the waist band.

PRETTY novelties seen on the bargain counters

THESE after Christmas bargain days in the shops are quite as interesting as were the shopping days when everyone was making purchases for the holiday season. There

OF SATIN FACED CLOTH IN TERRA COTTA.

are so many charming novelties of all kinds, from dainty little garments down to a new bow for the hair, that seemed to have been lost in the great mass of holiday goods, and now first come to light. Here are a few of the charming things that are seen in the New York shops:

Mother-of-pearl scales can be bought at a reasonable figure. These are lovely used as an outline to figures either of silk or lace. An oriental silk, with strange designs, had each design bordered around the outside edge with those tiny scales of mother-of-pearl. A design in London lace was treated in the same way.

Blouse waists of corduroy well covered with stitched bands of panne, or cloth of the same color arranged in festoons, are worn with the cloth skirts and bolero jackets for street costumes. Tan, gray and white are the first choice in colors, and they are usually brightened with some gold buttons and a black velvet collar band combined with gold.

Pretty things in tea cozies are in coarse linen in stylish shades. They are heavily embroidered. There is white upon yellow and upon gray, and yellow upon different soft shades of blue. A stylish cozy has animal designs, quinn figures of birds in white, the ground work of solid embroidery in a soft pink, the design being emphasized by an outline stitch of black.

The raglan overcoat, so fashionable for men, appears among the tailor garments for women, but only the fair ones with sporting proclivities venture to don one of these most unbecoming of all outside garments possible to women. Dainty waists of India mull in pale tints are worn with the tailor-made skirts and coats. They are finely laced and finished with a lace yoke, belt and cuffs.

Something novel in the way of a blouse is made of tucked silk striped around with black velvet ribbon, the lines being broken by applications of gurgule lace, edged around with narrow velvet ribbon.

The prettiest thing in name cards for luncheons or dinners are petals of flowers in tinted cardboard, crumpled exactly as the petals of genuine roses would be. One of these at each plate to agree with roses, which form the table decoration, is very pretty and dainty.

COOKING AT GREAT HEIGHT.

Recipes and Practices Reliable at Mean Level Worthless at High Altitudes.

As attempts are being made to found a domestic science and to introduce exactitude into the operations of the kitchen, a note in the Monthly Weather Review recording the actual experience of a housekeeper at Albuquerque, N. M., is of interest. It appears that cooking recipes and practices which are trustworthy not far from sea level are worthless at Albuquerque, the altitude of which is 4,933 feet. Water boils there at 202 degrees Fahrenheit, instead of 212 degrees Fahrenheit; hence articles of food the cooking of which depends upon heat applied through the medium of water require a longer time for cooking than is given in the cookery books. On account of the extreme

LEPROSY IN PHILIPPINES.

Fully Thirty Thousand Cases in the Islands, According to Franciscan Fathers.

An appended report to Gen. MacArthur's review of the civil affairs of the Philippines for the last fiscal year gives some rather startling facts regarding the introduction and prevalence of leprosy in the islands. According to the estimates of the Franciscan fathers, says Maj. Guy L. Ellis the writer of the report, there are not less than 30,000 lepers in the archipelago, the major portion of these being in the Visayas. Leprosy was introduced in 1633, when the emperor of Japan sent a ship with 150 lepers on board to the Philippines as a present to be cared for by the Catholic priests.

Thus the seed was planted, and no practical methods ever were adopted

JOHN F. A. LEISHMANN.

This well-known Pennsylvanian, for the past three years United States minister to Switzerland, has just been appointed minister to Turkey, to succeed Hon. Oscar Strauss, of New York, resigned. Mr. Leishmann, although now one of the rich men of the country, had a friendless childhood, having been reared and educated in the Protestant orphan asylum of Allegheny, Pa. After clerking for several years he engaged in the iron brokerage business, in which he amassed a comfortable fortune. Later on he became interested in the Carnegie and other steel plants and soon was numbered among the millionaires.

dryness of the atmosphere, farinaceous food, such as beans, corn, etc., lose so much of their moisture that they have to be left for a long time in water before cooking in order to be softened; but the worst difficulty is with cake-making. Ordinary recipes as to number of eggs and amount of baking powder break down altogether, and housekeepers have to modify them if they wish their operations to be successful. As the barometric pressure determines to what extent the disengaged carbon dioxide shall expand and aerate the dough this may explain the different action of baking soda and egg batter. In any case, the observation is interesting, and chemists may find it worthy of their attention.

Invention of the Fan.

The following Chinese legend accounts for the invention of the fan in a rather ingenious fashion: The beautiful Kan-Si, daughter of a powerful

ed to eradicate the disease or prevent its spread it has taken from root. A house-to-house inspection begun last January found more than 100 lepers concealed in dwellings. These were sent to San Lazaro hospital in Manila, but many others escaped into the surrounding country. A commission is now engaged in the work of selecting a suitable island or islands for the purpose of isolating all the lepers in the archipelago.

QUEEN MARGHERITA'S EX VOTO.

Dowager Queen Margherita of Italy has placed a beautiful votive offering in the chapel of the Consulate at Turin. It commemorates at once the safe return of Prince Luigi, duke of Abruzzi, from his expedition to the polar regions and the late King Humbert, her venerated consort and lord. The offering was made in the "Mother of Consolation," and was dedicated with much ceremony in the presence of the beautiful and pious queen herself. It consists of a fine-sillic, elegantly and elaborately wrought, of the young prince's ship, the Stella Polare, in which he made his voyage to the polar circle and which bore him safely back.

maudarin, was assisting at the feast of lanterns, when she became overpowered by the heat and was compelled to take off her mask. As it was against all rule and custom to expose her face, she held her mask before it and gently fluttered it to cool herself. The court ladies present noticed the movement, and in an instant 100 of them were waving their masks. From this incident, it is said, came the birth of the fan, and to-day it takes the place of the mask in that country.

Pants by the Leg.

destroyers and six other naval vessels, says the Saturday Evening Post.

Russia has launched two battleships, three armored cruisers and two torpedo boat destroyers.

Germany has launched one battleship, one armored cruiser and three torpedo boat destroyers.

Japan has launched one armored cruiser, two torpedo boat destroyers and one torpedo gunboat.

The United States has launched the two double-turreted battleships Kearsarge and Kentucky—the most powerful of their kind in the world; and she has three more battleships that can be made ready for service within a month if they should be needed.

Within the year there has been sent into the water by the various powers fully a hundred million dollars' worth of fighting craft, and a great deal more than a hundred million dollars' worth is now under construction.

WILL SAIL ON THURSDAY.

Thirty-Seventh Volunteers Given a Hearty "God Bless You, Comrades," by Gen. MacArthur.

TO SAIL ON THE SHERIDAN THURSDAY.

Gen. MacArthur Orders the Departure, to Guam Island, of a Large Number of Filipino Generals and Admirals—A Novel Experience for the Volunteers.

Manila, Jan. 8. Gen. MacArthur, accompanied by his staff, reviewed the thirty-seventh regiment of volunteer infantry, on the Luneta field. All the companies were together almost for the first time since the regiment was organized. After the review the regiment was drawn up in close order and Gen. MacArthur, in a farewell address, congratulated the officers and men on their bravery, discipline and judgment, concluding his remarks with a hearty "God bless you, comrades."

The thirty-seventh will sail for home on the transport Sheridan, Thursday. More than half the men and many of the officers came from Tennessee.

Ordered Departed to Guam.

Gen. MacArthur has ordered the departure of Generals Riquelme, Del Pilar, Hizon, Llanera and Santos to the island of Guam. Nine regimental and four subordinate officers, with eight civilians, including Trices, Tesson and Mabini, notorious assistants of the insurrectionists, have also been ordered to be deported. It is Gen. MacArthur's intention to hold most of the active leaders of the rebels, who have been captured, in Guam until the resumption of a condition of peace has been declared.

The first municipal election was held successfully at Hagunay, province of Benguet, Saturday. The Igorrotes took part in the election.

A Novel Experience.

The Filipinos in Manila have been enjoying, recently, a novel experience, in the holding of free, open political meetings. Most of the addresses at these meetings were made by former officers of the insurgents, all of whom asserted that the best way of securing personal liberty is to accept the liberties guaranteed by the constitution and government of the United States, which is what American sovereignty stands for. The audiences were greatly interested, and many of those attending the meetings signed the federal party declaration.

The construction of a rebel prison at Olungapo, in addition to those at Manila, will be begun shortly.

BUFFETED BY HEAVY SEAS.

Tempestuous Voyage of the Transport Ingalls From San Juan to New York.

New York, Jan. 7. The United States transport Ingalls, from San Juan, Porto Rico, December 27, and Havana, January 1, reached this port after a very tempestuous voyage. For 40 hours the vessel was buffeted by enormous seas, stirred by high winds from the north and later from the northeast and east. Doors and port lights were smashed, ladders were broken, and the bridge was damaged. The hand steering gear was carried away and the saloon and dining saloon were flooded, the furniture being broken or ruined. The special apartment on the upper deck aft was also wrecked.

Many times during the storm it seemed as though the Ingalls must be lost. The pumps got out of order and refused to work in the after hold. A bucket brigade was organized and worked steadily hoisting out the water. Some oil barrels in the hold broke away from their fastenings and stove, spilling their contents and choked the bilge hole so that the pumps could not work. The Ingalls was formerly known as the Clearwater. She was built to carry fruit from Honduras to New Orleans and is a very fast boat.

THE BATTLESHIP ALABAMA.

The Vessel Expected to Join the North Atlantic Squadron at Pensacola January 11.

Pensacola, Fla., Jan. 7. The battleship Alabama is expected here January 11 to join the other vessels of the North Atlantic squadron. A camp will then be established on Santa Rosa island for shore drill, after which the vessels will take on coal and provisions for a cruise in the gulf, leaving here about January 20. Gen. Admiral Farquhar has notified the navy department that the fleet will return to Pensacola from the gulf cruise February 16 and remain here possibly until March 6.

Severe Winter in Europe.

London, Jan. 7.—On the continent the weather is reported very severe. Snow has fallen as far south as Naples, and in St. Petersburg the cold is so intense that the police in the streets have to be frequently relieved and the schools to be closed. At Moscow the temperature is 30 degrees below zero.

Call to Sabbath School Children.

New York, Jan. 7.—Children in the Sabbath schools of the congregational church in the United States have been asked to contribute a fund of \$50,000 for the rehabilitation of the recently destroyed Chinese missions.

WHEELER WAS TOO POINTE.

Embarrassing Dilemma in Which "Fighting Joe" Lately Found Himself.

At Washington the other day it was raining hard, and the streets were crowded with passengers more or less bedraggled. Among them was Gen. Joe Wheeler. Next to him was a woman wearing a mackintosh, who rose to get off at Fourteenth and P streets. Gen. Wheeler noticed an umbrella leaning against the car seat.

He grabbed the umbrella, ran after the woman, caught her at the door and said: "Pardon me, madam, but you left your umbrella."

The woman looked puzzled, but took the umbrella. Gen. Wheeler resumed his seat. Then a woman on the other side of him gave a little scream and said: "Why, you nasty little man, you gave that woman my umbrella!" Then she appealed to the conductor.

Gen. Wheeler apologized, but the woman said: "Now you just get right off the car and get it for me or I'll notify the police!" Meekly the veteran of three wars tumbled off into the rain and ran after the woman with the mackintosh. He made a hurried explanation, got the umbrella and rushed back to the waiting car.

As he handed it back to its owner he said: "I trust you will pardon me, madam. I assure you it was all a mistake." "I don't know about that," she smiled. "I don't believe you are any better than you ought to be."

The New Cup Defender.

Now being built, is confidently expected to be the fastest sailing vessel ever built. Its construction is being kept a secret, but it is whispered that it will easily hold the cup America's rapidly coming to the front. A good example of this is in that famous household remedy, Hostetter's Stomach Bitters, which has defended health for half a century past. It holds the record for the cure of dyspepsia, indigestion, constipation, nervousness, biliousness and is gripe.

THE CHANGE OF LIFE

Is the most important period in a woman's existence. Owing to modern methods of living, not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms.

Those dreadful hot flashes, sending the blood surging to the heart until it seems ready to burst, and the faint feeling that follows, sometimes with chills, as if the heart were going to stop for good, are symptoms of a dangerous, nervous trouble. A pound supper at Jim Sullenger's one night last week.

J. W. Bettis and wife, who have been sick for some time, are improving.

The young folks of this neighborhood seem to be enjoying themselves during the holidays in the way of pound parties, candy breakups, etc. Well, boys, Christmas doesn't come but once a year, does it?

E. T. Sullenger will ship a lot of hogs soon.

Mrs. Helen Harkesty, who has been in feeble health for some time, is able to be up again.

Happy new year to the Press and its many readers.

SHADY GROVE.

Santa Claus has come and gone.

We in company with a number of others enjoyed Christmas at our old friend, R. R. Tudor's, where we were invited to dine. Dick and his good wife know just how to entertain their friends and make them feel happy. But oh, that dinner! Well it was an extension table. It extended clear across that large dining room of friend Tudor's, and if ever a table groaned beneath its load that one surely did. It would be impossible to describe it, utterly impossible to mention the good things it contained. But that twenty year old Kansas City whiskey the custard was spiked with was out of sight. The trouble was Bud Easley and John Tucker eat so much they have not been able to get out since.

The young folks had quite a gay time at John Birchfield's Friday night.

Mann Towery and sisters gave an entertainment Saturday night, and every one reports an enjoyable time.

Wallie Camahan and his sister Annie, of the Blackford neighborhood, are visiting the family of Joe L. Cardwell. Will is a real heart-breaker, though his best girl lives in Marion.

Madam rumor says we are to have a new store in town soon. Our old friend Dannie Hubbard and a Mr. Parker are going into business together. We are glad to have Dannie with us once more.

Shady Grove is on a boom. Moore & Langley are doing an extensive tobacco business here, and prosperity has struck the town.

Sale Notice.

O. F. Swansey.

To the Editor and many friends who read the Crittenden Press: By request will write you the obituary notice of Bro. O. F. Swansey, who departed this life Dec. 21, 1900. The above death was such a shock that sadness has filled our hearts, he being the very day of his death enjoying good health, but taken away while enjoying his evening meal without a moment's warning finds us unprepared to be fully reconciled.

Brother Swansey was born June 22, 1862, was married to Miss Ida F. Crider October 4, 1883. To this happy union were born three children. How heartrending to the three little girls to give up their precious mother in May, then in December following a loving father; then to visit the home and find the old mother overcome with grief at the sudden death of her son, his brothers and sisters trembling and weeping, how necessary, we thought, if it was in our power to give heed to the prophetic word when he said, bind up the broken-hearted. We realized that the mother had lost a precious son, the brothers and sisters had to give up a dear brother, the children a kind father, this neighborhood has lost one of its best neighbors and the C. P. church at Marion a devoted Christian and a precious jewel. We wish to give heed to the sacred scriptures wherein they teach us to render unto every man his just dues, praise to whom praise is due, honor to whom honor is due. Well might nature wilt when we realize such a loss; but our loss is Bro. Swansey's great and eternal gain. Then truly the Psalmist could say, precious in the eyes of the Lord is the death of his saints. The Apostle Paul joins David with these words, "There remaineth, therefore, a rest for the people of God." Then John, the revelator, teaches us what the spirit had made known to him the happy state of the saints after death by saying, "And I heard a voice from the heaven saying unto me write, Blessed are the dead which die in the Lord, from henceforth, ye shall be like unto him, and their works do follow them."

So all we read in Holy Writ is to us the work of the spirit, the divine revelation. Holy men of old wrote as they were moved by the Holy Ghost. Then is not this word the voice from heaven to the bereaved ones, through the inspired writers?

With this view of the Word of God can we not say with the poet, what more can he say than to you he hath said, you who unto Jesus for refuge hath fled. Jesus taught the disciples that he would be with them always, even unto the end of the world; yet when he said I must go away, sadness filled their hearts, but he gave them these words, and has also given them to us, "I will not leave you comfortless." Do we not see that he verified that promise by giving the Holy Ghost on the day of Pentecost. They were no longer to tarry in Jerusalem, from the fact they were then endowed with power from on high and did not these disciples go forth preaching the glorious doctrines of the resurrection of these bodies. They are witnesses, eye witnesses from the fact that they were with Jesus before and at the crucifixion, when he died, and was with him after he rose from the grave, and could say, he hath begotten us again unto a lively hope by the resurrection of Jesus Christ from the dead. To this Paul would add, "Wherefore, for the reason signed above, comfort one another with these words."

Then in our bereavement and troubles here in this life we should not despair, for Jesus says because I live ye shall live also; behold, says he, I am alive forever more. Yet the ties of nature are so strong the human family weighed down under such sad bereavements, that sorrowing in a modern sense is commendable. For Jesus when at the grave of Lazarus saw the two sisters and the Jews weeping he also wept and comforted Mary and Martha with these words, Thy brother shall rise again, and said, believest thou this? Then Mary answered, yea, Lord.

Dear friends, bereaved and afflicted ones, can we not take comfort as the poet said He wept that we might weep, and in his tender affection at the grave of Lazarus, the Jews said, behold, how he loved him!

This brings afresh, to our mind is everlasting love, his watchful

care over those bodies after death. Having loved his own he loved unto the end. In this instance love continued after the death of Lazarus and will be so with all his saints. Here we have recorded the faith of Martha. I know, said Martha, that he, Lazarus, shall rise again in the resurrection at the last day. Then said Jesus, I am the resurrection and the life, Yet we, like Job, in our bereavements and afflictions, here we are made to inquire, why am I thus disappointed and afflicted; make me to know, says Job, my grace, says Jesus shall be sufficient; then says Paul, we know that all things work together for good to those that love the Lord. Then to know does not necessarily imply that we shall fully explain how we know that we have passed from death unto life. How do we know? Because we love the brethren. But we can not explain fully how it was. We know that there is a heaven and that there is a God, but we are so limited in our explanation some one will say there is no God. Job says the Lord shall call and I shall answer thee; Jesus says the hour is coming and now is that all that are in the grave shall hear his voice and shall come forth; who can explain fully? Yet we know that when he, Christ, shall appear we shall be like him for we shall see him as he is, even so also them which sleep in Jesus will God bring with him.

WOMAN

IS LIKE A DELICATE MUSICAL INSTRUMENT

In good condition she is sweet and lovable, and sings life's song on a joyful harmonious string. Out of order or unstrung, there is discordance and unhappiness. Just as there is one key note to all music so there is one key note to health. A woman might as well try to fly without wings as to feel well and look well while the organs that make her a woman are weak or diseased. She must be healthy inside or she can't be healthy outside. There are thousands of women suffering silently all over the country. Mistaken modesty urges their silence. While there is nothing more admirable than a modest woman, health is of the first importance. Every other consideration should give way before it. Bradfield's Female Regulator is a medicine for women's ills. It is the safest and quickest way to cure leucorrhoea, falling of the womb, nervousness, headache, backache and general weakness. You will be astonished at the result, especially if you have been experimenting with other so-called remedies. We are not asking you to try an uncertainty. Bradfield's Female Regulator has made happy thousands of women. What it has done for others it can do for you. Sold in drug stores for \$1 a bottle.

A day illustrated book will be sent to all who write to THE BRADFIELD REGULATOR CO., Atlanta, Ga.
